

GLEN ROSE

Independent School District

G. Wayne Rotan, Superintendent

On October 11, 1997, Glen Rose ISD voters approved a 30 million dollar bond referendum for the construction, maintenance and land purchase needed for new campuses. Glen Rose ISD is classified as a Chapter 41 school district, meaning the property wealth per student exceeds the amount allowed by state law. Glen Rose ISD only retains the taxable value per student allowed by state law and the remainder is sent to the state through a law referred to as "Robin Hood". Glen Rose ISD currently sends about 50 cents of every maintenance and operations tax dollar collected to the state through Robin Hood. ([See 1997 voter material attached](#))

Bond indebtedness or I & S is an avenue in which school districts keep 100% of every tax dollar collected. I & S must be approved by voters and is limited to construction and maintenance projects and land or equipment needed to equip facilities.

Glen Rose ISD and its voters were very proactive with the passage of the 1997 bond issue and have received the benefits of the passage since 1997. Taxpayers yielded more than a 50% return on their investment because every penny collected was spent on Glen Rose ISD students and not sent back through Robin Hood.

The following projects have been completed with the 1997 bond proceeds and future projects are planned through 2010.

\$30,000,000 Approved by voters on October 11, 1997.

Issues: 1998 - \$9,750,000
 2003 - \$8,250,000
 2006 - \$5,800,000
 2007 - \$6,200,000

Projects Completed by Fiscal Year

1997-1998

- Intermediate School classroom addition
- Leach Gym Renovations
- JH Roof Repair
- High School Classroom Additions and Renovations
- High School Choir Room Addition
- High School Computer Lab Addition
- Two Story Junior High Addition
- High School Roofing Repair
