Assistant Superintendent of Operations

Kellie Harris
Administrative Assistant

First, let me welcome you back to the 2019-2020 school year. We hope everyone is as excited to be back as we are to have you back at Glen Rose ISD.

We are happy to announce that Glen Rose ISD will be launching an innovative transportation solution for our school buses. BusView provides GPS tracking for buses and student ID cards.

BusView monitors bus location, speed, turns and other key bus metrics, as well as where and when students board and exit buses in real time. This enables GRISD to closely monitor buses to know where they are along routes and to proactively respond to all transportation issues. The new system will also provide parents "peace of mind" knowing their children made it on to the correct bus and got off at the correct stop.

There is also a portal for parents, which enables parents to see when your child boards and exits buses with time and location stamps. Parents will be able to make changes to their child's normal bus route if they need to ride a different bus on a particular day. This can be changed using the web site which sends a notice to the school for the change.

To access the website and parent view via any smart-device, parents will need to first register at www.nftbusview.com and then click on "ParentView".

To register, please provide the following:

Your Child's Campus (i.e. Elementary, Intermediate, Jr. High, High School)

Student ID Number (Lunch Number)

Date of Birth

4 Digit Security Code (this code will be emailed to you on August 12, 2019)

(for multiple kids, parents will need to follow the same process for each of their children, then you can merge them together).

This user-friendly solution is available in English and Spanish.

If you have any questions please contact Tommy Corcoran, Kellie Harris, or Matt Hille at 254-898-3917, or email corcto@grisd.net

Sincerely,

Tommy Corcoran

Assistant Superintendent of Operations
